DETAILED ACTION

1. This action is in response to amendment received on 8/24/04. Claims 1-8,10-23, 25-32, 34 and 35 are pending.

Allowable Subject Matter

2. Claims 1-8,10-23, 25-32, 34 and 35 are allowed.

REASON FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The prior art(s) teach(es):

Takagawa et al., US patent no. 5,987,612, discloses an Internet accessing apparatus that initializes an information storage card and automatically executes a series of processes from connecting to a network to obtaining information from the Internet.

Himmel et al., U.S. patent no. 6,4534,342, teaches of removing the web content from the cache after the browsing session terminates.

The claimed invention is allowable over the art of record in view of applicant's argument presented in the Remarks of the above amendment that the applied art fails to disclose the claimed invention because the applied art fails to disclose the limitations that the software on the portable device causes the host computing device to delete the records relating to the computing session when the computing session is done, wherein said records include cookies, histories and information in cache.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

EXAMINER'S AMENDMENT

4. An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

5. Pursuant to MPEP 606.01, the title has been changed to read:
